

## The use and impact of The Primary School PE and Sports Funding 2017-2018

In 2017-18 the government announced an increase in the primary sports funding. Prior Heath Infant School received £16,000 plus £10 per KS1 child to develop provision in Sports and PE. PE is a maintenance subject for 2017-2018. Our 2017-2018 plans for the PE and Sport Funding are based upon our evaluations and analysis of PE in EYFS and KS1. At Prior Heath Infant School our aim is to use the funding to have a long-term impact on children's healthy lifestyles, physical wellbeing and achievement in PE. We plan to use this funding to:

£	Action	Actual outcome
£1250	To arrange CPD for staff in fundamental movement skills.	Training took place in the Summer term during an INSET day to develop and enrich staff's knowledge and understanding of how to deliver high quality PE lessons across the school. Staff developed their understanding and learnt about how activities throughout the school day can help to build key skills and a love of healthy lifestyles and sports in the future. Staff have already implemented some of the ideas suggested.
£365	To provide training for the PE lead.	The PE lead attended 'Developing Healthy Active Lifestyles'. They fed back ideas to support this across all lessons and this has been implemented throughout the school.
£2735	To continue to provide a "Play Leader" for KS1 and EYFS pupils at lunchtime.	The play leader continues to support learners in lunchtime games by leading a different skill based game or activity each day. She continues to promote a love of physical activity and a large proportion of the children choose to engage in these popular games. We continue to see a decrease in playground incidents due to the use of this funding.
£1481	To provide additional adult support in PE lessons and throughout outdoor learning provision.	This year we have introduced an additional adult to support KS1 in PE lessons. This additional support has been hugely beneficial and we have seen more confident children during these sessions. The additional adult has targeted the 'less active' group or those who required extra support to achieve the fundamental movement skills. In the outdoor provision children are seen to be making active choices using various equipment and showing an awareness of healthy and active lifestyles by participating in extra games and provision outside of their normal PE time.
£2872	To provide time for handover for new PE Lead.  To provide release time for PE lead to monitor planning, assessment, teaching and learning across the school, including learning walks, sports day and competitions.	Throughout the course of the year, the PE Lead has been able to monitor teaching and learning in PE and has been able to obtain pupil and staff views of PE and Sports. The PE lead has used this time to organise events and workshops to increase participation and promote healthy and active lifestyles. The PE lead continues to use this time to implement ideas and suggestions provided by staff and children.  The governor learning walk took place in the Summer term and both governors complemented staff on their high quality provision.
£160	To apply for the Active Surrey "Star Mark".	The PE lead applied for the 'Active Surrey Star Mark' and collected evidence of the PE provision at Prior Heath. We received the '2 star quality mark' and are now working on achieving the next steps to enhance and maintain the outstanding provision.
£916	To replace PE equipment and resources as needed.	Quality resources for PE and learning have been purchased, including fine motor resources to support 'moving and handling' within the EYFS. The PE resource shed has been audited and organised in order

		for staff to prepare for outstanding lessons, as well as encouraging the children to independently find resources. This money continues to maintain the provision of scooter park to encourage activity.
£626	To provide new sports opportunities.	The Reception children took part in a skipping workshop run by SCL staff. Bike ability took place in the Summer term for Year 2 children to enhance their cycling skills and learnt road safety rules too. Year 2 children have participated in 3 multi skills over the year, promoting a range of skills and values through carousel activities. The PE lead organised a team to attend a local PhysiFUN festival which the children came in first place and therefore attended the Surrey county games to compete again. This targeted the least active and those with additional needs. All children took part in a 'bringing books to life' workshop where they participated in a dance workshop for a morning. The children were thoroughly engaged and encouraged to try something new with their peers (West End in Schools). Street Dance sessions were organised using Sainsbury's vouchers.
£6785	To liaise with staff and pupils to consider their ideas to enhance healthy lifestyles and physical activity across the school.	<p>The PE lead organised a staff survey whereby teachers and teaching assistants were able to express how they would like to spend the remaining funding on promoting physical activity. The PE lead also spoke to the children in each class to gain pupil views across the school. Children were able to vote for their favourite choice on how to spend the money. The majority of the votes showed that the climbing wall would be the most popular.</p> <p>The installation of the climbing wall has proven to be a huge success! The children have shown a range of skills and values such as determination, teamwork and passion whilst learning how to successfully move along the traverse wall. The children use this during play time, lunchtime and during lesson times to enhance their physical activity and participation.</p>
